Drawings stored in AutoCAD®, AutoCAD LT®, AutoCAD Web App, AutoCAD Catalyst®, and AutoCAD Composer are now compatible with Markup Assist. The easier it is to share information and feedback, the better chance you have of providing a high quality product. Automatically track your work in progress. Our new progress tracking automatically tracks your progress through stages of a drawing. Get help and information AutoCAD Help is online and available 24/7. Access AutoCAD Help through the system menu Help button, or the AutoCAD Home page help window. View a list of the best free AutoCAD tutorials online. We now support color-coded sticky notes in the tools. Change your notes and change your colors at the same time. Color your Design. Choose from a variety of colors to mark different states in your design. Red for almost all. Green for approved. Blue for low risk. A yellow tag is added to the grid. This tag is automatically removed when you are done or if the tag is removed automatically (e.g. If a tag is automatically removed for an error, a warning or an error, there is no need to cancel the change or delete the tag). When you are ready to commit, click Yes to the confirmation dialog box. If there is a change on a tag that you do not want to commit, the change is automatically cancelled. If you manually remove a tag, the tag is removed from the drawing and the next time you click Yes, the tag is automatically removed. There is no need to delete the tag or cancel the change if the tag is automatically removed for an error, warning or for an error that is not removed from the drawing (e.g., Auto-Merge, Auto-Collapse, and Auto-Remove Label). A pencil line is added to the grid if you move to an adjacent block. Access to text styles and font styles, such as styles for text, letters, symbols, and numerals, is included in this release. Improved text symbol rendering. You can render a text symbol into an existing text or font style. The size of the text symbol is automatically adjusted so that it appears the same size in any text style or font. In earlier releases
