You can find a migration plan at the Cloud Marketplace, which includes dedicated AWS Optimization and Licensing Assessment (AWS OLA), and AWS Migration Acceleration Program (MAP) for Windows Server. If you have an on-premises Windows environment, the AWS OLA will help you determine whether it makes sense to move to AWS. The AWS OLA will also help you decide whether you need to upgrade the CPUs of the instances, or add Reserved Instances. If you opt for the AWS Migration Acceleration Program for Windows, you will get guidance on how to migrate your Windows-based workloads, including a plan on how to manage migration impact.
